Intervention In The Caribbean: The Dominican Crisis Of 1965 (Agricultural History And Rural)

Synopsis

The 1965 U.S. intervention in the Dominican Republic remains a unique event: the only time the Organization of American States has intervened with force on a member state's territory. It is also a classic example of a U.S. military operation that drew in America's hemispheric allies. Finally, its outcome was that rare feat in the annals of diplomacy—a peaceful political settlement of a civil war. Here for the first time is the full story of that action, as told by one of its leading participants. General Palmer was the U.S. Army's operations chief in Washington in April 1965 when the Dominican crisis broke, and was placed in command of U.S. forces deployed to the Republic. His perspective thus reflects both the perceptions of Washington officials and those of the U.S. commander on the scene. Palmer's instructions from President Johnson were to prevent another Cuba. Although the intervention remains controversial today, especially with Latin Americans, it was successful both politically and militarily, bringing unprecedented stability to the long-troubled Dominican Republic. The lesson Palmer draws is that success in such a venture comes only when political and military actions are orchestrated toward a common political goal. Palmer concludes with an assessment of the current situation in the broader Caribbean area, including a comparison of the 1965 Dominican and 1983 Grenadian interventions, and an analysis of the situation in Panama with its implications for the Canal Treaty. His book is a timely contribution to the history of the Caribbean that enlarges our understanding of this region's vital importance to the United States.

Book Information

Series: Agricultural History and Rural

Hardcover: 256 pages

Publisher: University Press of Kentucky; First Edition edition (December 4, 1989)

Language: English

ISBN-10: 0813116910

ISBN-13: 978-0813116914

Product Dimensions: 5.5 x 0.8 x 8.5 inches

Shipping Weight: 14.4 ounces (View shipping rates and policies)

Average Customer Review: 4.3 out of 5 stars— See all reviews— (3 customer reviews)

Customer Reviews

This '65- 66 US intervention was probably planned a couple yeras before afternational -populist J. Bosch won the '63 election s and a military coup followed-The USA knew the pro-Washington military had weak popular supportsas was divided. .As for Proofs of, '39 or so communists being on the Island' !!Is that any ethical reason for the 'free world' to wipe out - repressa few thousand lives there, mostly civilians. ?Anyway there is deeper reality as this started as civil strife- political-and ECONOMIC and the USA was not going to allowthe populist influence spreading. then even into the Militaryaround nationalist Col. Caamano , et al, be any example to other Latincountries, etc.Caamano's guerillas only organized & became pro-Cuban a few years AFTER the US takeover,and its installing of the puppet Belaguer's despotic regime.

Written by the commander, this book contains interesting insights into one of the "hot" conflicts of the Cold War, which very few people in the U.S. even remember today. It makes an excellent companion to the Leavenworth Paper on the same subject.

Great read for military historians about a little known event.
