Customer Reviews

The world is going crazy over Pokemon GO and this is a neat little book that shows some cool hacks you can try. It was definitely a nice book to enjoy in spare time like I did because everything that was written was accurate and effective. This is a complete package eBook and a one-stop guide! If you have ever wonder how to go along with this new game trend that everyone has been crazy about, is well-written and organized, as well as, easy to follow. Thanks for the step by step

guide!

I love playing Pokemon Go. I have been addicted to the game since the first day I started playing it. I'm also loving this book. It contains guide and tips on how you can play Pokemon Go and become a Pokemon Master. The text in this book quite detailed and written in good quality. It's also very easy to understand. The only thing that is lacking is pictures. It would be great if the book includes screenshots as the author explains the interface of the game. I recommend this book to those who want to master the game Pokemon Go.

Who is not crazy about this very popular game? Now Jackson published a compilation of memes about it and I just can't stop laughing! Such fun to read this book. I believe that my family who's addict on the game will surely stop laughing also.

LOL. This memes made my day and I have never thought we can share this book during our break time and laugh at it. We are luring Pokemons while reading this too.
