With Every Breath: Stories By And About People Living With Cystic Fibrosis

Synopsis

Over 30,000 people in the US have cystic fibrosis, a life-threatening genetic disease that affects the lungs and digestive system. Physically, fighting it is a very perilous struggle. Emotionally, coping can oftentimes be even harder. *With Every Breath* consists of stories by and about people living with cystic fibrosis. Created to motivate, inspire, and generate positivity for those living with cystic fibrosis, this book is something you can open time and time again. Designed for all ages, this collection of diverse stories offers unique perspectives from patients, a CF doctor and nurse, and family members of those living with the illness. Patients aren't the only ones who will want to read *With Every Breath* as family members, friends, and doctors can all find inspiration when they open it. The stories range from overcoming challenges, understanding the disease, lung transplants, diagnosis stories, and more. The book is filled with fun artwork, uplifting quotes, and photography. Celine Dion contributed the Foreword, and there are chapters by people of all ages and walks of life. This book is sponsored by the Boomer Esiason Foundation, and all proceeds will go to cystic fibrosis.

Customer Reviews

I am glad that I purchased this book! I find it very interesting to read about genetic disorders! It has taught me how challenging a genetic disorder is for ANY family who happens to have a child with CF! Hopefully this book will be a help to families who have a child/children with CF! I've purchased a # of books thru dealing with the subject of Cystic Fibrosis! The stories presented by the families are really touching and they strive to give their child a life to savor as long as possible! Dawn E.

Lowenstein

Love it!
